

QUINCY C. HILLIARD

Octane

About the Composer

Quincy C. Hilliard's compositions for wind band are published by several major music publishers, and are performed throughout the world where there are wind bands of British-American instrumentation. His stature as an outstanding composer is apparent as conductors frequently commission him for new compositions. Dr. Hilliard has been a recipient several times of the distinguished American Society for Composers, Authors and Publishers (ASCAP) award recognizing the numerous performances of his works and was chosen as one of a select group of composers to write a piece for the 1996 Olympics. He has also written the music score for a film documentary entitled "The Texas Rangers" for public television. In 2008, he was commissioned by the Library of Congress to compose a work in celebration of the bicentennial of the birth of Abraham Lincoln. In addition to composing, Dr. Hilliard is invited to all parts of the world to conduct, adjudicate festivals, and demonstrate effective teaching techniques and has written extensively on pedagogical topics in journals and publications.

In the spring of 1997, Dr. Hilliard was appointed by the Governor of Louisiana to the Louisiana Arts Council. Dr. Hilliard is also the president of Hilliard Music Enterprises, Inc., a personal consulting firm that has a corporate board of distinguished music educators. He is currently composer in residence and professor of music theory and composition, and holds the Heymann Endowed Professorship of Music at the University of Louisiana in Lafayette.

Other concert band works by Quincy C. Hilliard published by the Neil A. Kjos Music Company include *African Festival*, *Chesapeake March*, *Communio*, *Kyoto*, *Ten Chorales for Beginning and Intermediate Band*, *Fanfare for Freedom*, *The Place Where The Reeds Were Destroyed*, *The Unknown Soldier*, *Sea Storm*, and the orchestral work *Chorales for Beginning and Intermediate String or Full Orchestra*.

In 2014, Hilliard received the prestigious Mississippi Institute of Arts and Letters Award in the Classical Music Division. He was also recognized with a Global Music Award for his work as a composer. In 2012, one of his pieces, *Coty* (clarinet and piano) was recorded on a CD that was nominated for a Grammy Award.

About the Composition

Octane should be played in a very vibrant and exciting manner. The opening mood should be quiet and tranquil. The *allegro* section should be a complete contrast to the *andante* and must be played at a fast and driving tempo. Make sure that the Snare Drum's rim shots are heard over the rest of the ensemble and played with a consistency in sound. The last measure was written to let the chimes ring until the sound has completely decayed while the band holds completely still. Once the sound has decayed, the performers should slowly bring their instruments to a resting position.

Kjos Music's Guide to © Copyright

Composers rely on the income that their compositions generate, and it is the job of the copyright holder to protect the work from infringement. Copyright laws can be pretty tricky to navigate, so here are a few helpful tips to guide you through the process.

Adjudicator Copies

During contest and festival season, the majority of the inquiries we receive concern making photocopies of scores to meet specific requirements for the judges at a festival.

If you're performing a concert selection out of one of our method books (*Tradition of Excellence*, *String Basics: Steps to Success*, *First Place for Jazz*, among others), permission may already be given to make the necessary photocopies for judges at these festivals. Please refer to the notices printed in the teacher score on the specific piece.

If a student is performing a solo from one of the method books listed above, permission is already given. In addition, a photocopy may be given to the accompanist.

Extra scores for our band and string repertoire (*Beginning BandWorks*, *BandWorks*, *Conservatory Editions*, *StringTracks*, and *Steps to Successful Literature*, among others) are available for purchase from your favorite music dealer. If you're performing a work from a series that's not listed above, please contact us for permission.

Making an Audio or Video Recording

A license is required any time you make an audio or video recording of a copyrighted work. Audio recordings are compulsory, meaning, we can't deny your request; you just need to apply for the Mechanical License and pay the royalty. The royalty rate is set by the Library of Congress. For current rates, please visit www.copyright.gov.

The license to make a video of a performance, known as a Synchronization License, is not compulsory. Permission must be obtained from the copyright holder before distributing any copies, regardless if they are being sold or given away for free.

Arranging for Marching Band or Another Ensemble

We're pleased to grant licenses to make a marching band (or other) arrangement of one of our concert works. However, permission is required before work can begin, and there are a few works whose composers have indicated that they do not want their compositions to be altered. Please contact us to make sure the piece you're interested in is available for licensing.

If you're planning to play the original piece without **any** alterations or additions, then a license isn't needed. However, for example, if you're rewriting the brass parts for marching instruments (mellophones, bugles), or adding marching percussion, or making cuts, adding repeats, or creating a medley with another composition, a license is required.

What If I Want To ... ?

If you'd like to use a composition in **any** other way, please contact us and we would be glad to advise you.

Contest and festival season is a busy time for our Copyright Office. Please contact us at least **three weeks** before your concert date so that we may help you in time. Please visit www.kjos.com and click on the Licensing tab to find out more information or to submit a license request.

We're so pleased that you've chosen to perform one of our pieces! We appreciate your support and we want to make the licensing process as easy as possible for you.
