

Program Note

SCENES from "THE LOUVRE"

This band version of "The Louvre" is taken from the original score of the NBC television special that was first broadcast nationally in November 1964. In September 1965, the composer received the Emmy Award for this score as the most outstanding music written for television in the season of 1964-1965.

The five movements of this suite cover the period of "The Louvre's" development during the Renaissance. Here themes are used from composers of that time.

Edward Downes, the noted critic, has written about this work that "a strong melodic vein, rhythmic vitality, an infectious brio and freshness of invention are among the earmarks of Dello Joio's style."

The band work, commissioned by Baldwin-Wallace College for The Baldwin-Wallace Symphonic Band, Kenneth Snapp, conductor, was premiered March 13, 1966, conducted by the composer.

NORMAN DELLO JOIO

Norman Dello Joio, descended from three generations of Italian organists, began his music training early. He quickly showed remarkable aptitude and facility. At fourteen, he already was organist and choir director of the Star of the Sea Church in City Island.

Composition attracted him while a Juilliard School of Music student. After three years, he proceeded to the Yale School of Music to study under Paul Hindemith. For some years Dello Joio was on the faculty of Sarah Lawrence College and is now professor of composition at Mannes College of Music.

Composing has taken practically all forms: symphonic, choral, chamber, modern dance, ballet and opera. His work for dramatic television has been extensive. His awards, which include the Pulitzer Prize, the New York Music Critics Circle Award, the Emmy, are many.

Dello Joio's works for band include "Variants on a Mediaeval Tune" and "From Every Horizon."
